## EDUCATION

September 2022 - Present

**Bachelor of Technology in Computer Science | Honors in Cyber Security**

KJ Somaiya College of Engineering , Mumbai , India

GPA - 7.4 / 10

## SKILLS

**Soft Skills:** Leadership, Analytical thinking and Problem Solving, Communication, Time Management, Teamwork, Attention to detail, Communication Skills, Project Management, Brand Management, Brand Collaboration

**Technical Skills:** **Web Development** - HTML, CSS, Javascript, Bootstrap, PHP, **Programming Languages** - C, Python, Java, **UI/UX** - Figma, Adobe XD, Sketch, **Designing Softwares** - Photoshop, Illustrator, CorelDraw

## PROJECTS

### Chat Application using Flutter.

Developed a cross-platform messaging app using Flutter with real-time messaging, multimedia sharing, and user presence indicators. Integrated Firebase Authentication for secure login, Firestore for real-time data storage, and Firebase Cloud Messaging for notifications. Implemented Google sign-up and push alerts for seamless communication.

### Cotton Crop Disease Detection using Machine Learning and Deep Learning Techniques.

Developed an AI-based model for early detection of diseases like bacterial blight and leaf curl virus. Using deep learning techniques, the system analyzes images of cotton leaves to classify diseases accurately. This methodology includes data collection, preprocessing, feature extraction, classification, and deployment in a real-time application. This project enhanced agricultural productivity by providing farmers with an automated and efficient disease detection tool.

### Hotel Management System using SQL.

Developed a Hotel Management System using SQL to efficiently handle reservations, guest details, room availability, and billing. Implemented a structured database for seamless data management, ensuring quick retrieval and secure storage. Integrated functionalities for check-in/check-out, staff management, and report generation to enhance operational efficiency.

### Heal Grimage: A Seamless Experience for Medical and Cultural Tourism

Heal Grimage is a comprehensive website for medical and cultural tourism, connecting users with top healthcare providers and immersive cultural experiences. It offers custom searches, secure bookings, personalized itineraries, and trip management tools, ensuring seamless planning. With a user-friendly design, encrypted security, and trusted partnerships, Heal Grimage simplifies and enhances global travel for both medical and cultural needs.
